

## Club Activity Report

The Scientific Skills Maths Club Activity was organized on 22nd August, 2022 for the students of classes VI-X to improve their logical thinking skills. Students created Puzzles and Riddles based on mathematical concepts and logical thinking skills. Students prepared different objects and animal poses by using Tangram pieces. They asked the Puzzles and Riddles to their peer partners too. They enjoyed the activity while performing.

### Students learnt:

- The importance of Maths in day to day life.
- Basic concepts of mathematical operations.
- To enhance their logical thinking skills.
- Secret behind the puzzles.
