

REPORT

NAME OF CLUB: Buddy Scientist Club

DAY & DATE: Wednesday, 19th April 2023

CLASSES: IV-V

NAME OF THE ACTIVITY: Carbon footprints

An activity related to carbon footprints was organized in the BBPS Khargone. In this learning activity, the students made footprints and used a carbon calculator to determine their carbon footprints on the basis of their personal and household habits and choices. Students identified which personal activities and household choices produce the most CO₂ emissions. They identified lifestyle change they can make to reduce their footprints. Students enjoyed and learnt a lot while presenting the activity.

Students' learnt: -

- To understand the effect of their life choices on their carbon footprints.
- To determine their carbon footprints by answering questions about their everyday lifestyle choices.
