INTIGRITY CLUB REPORT

TOPIC: Build a Dream City

NAME OF ACTIVITY: Model Making

VENUE: Respective Classes

CLASSES: IV-IX

Students make models on the topic 'Build A Dream City'. Through this activity, students express their thoughts with new ideas and new innovations for a green and safe city. They also use modern facilities for city development.

Through this activity, students show a green city for environmental friendliness. Well-developed road communication will be spotless, and most places will have vegetation. It will develop into a planned metropolis with an effective waste management system. The current non-renewable energy source will give way to renewable energy. This will make a long way toward making a clean, environmentally friendly city. They use different materials for making the model.

Learning Outcomes:

- The student learnt about sustainably developed green cities.
- The student also understood that the responsibility of people is to conserve the natural environment.
- They enhanced their new ideas and thoughts for the country's development of a dream project.
